Jim Parker

Bob Wakefield
Lacamas Shores HOA
Camas, WA

Dear Bob,

The corner area looks great! Our thank you to the board and Liz for making it happen. After our conversation on Saturday, I am enclosing the plot map for both the HOA parcel and the City of Camas'. It outlines the boundary fairly accurately. As I mentioned, we would be very unhappy if our neighbors put up a structure in our line of view. The area is common space, to be maintained in a natural state. We are not sure what type of agreement they had with Tom Shieler when they purchased the lot, but our agreement was that we could landscape to the wetland area with natural plant material but no structures. If you speak to the Parker's will you please keep us abreast of any developments?

Kindest regards,

Mike and Cindy Ontkian
